Personal Profile

I am a Cloud Engineer with Bachelor's Degree in Informatics, with expertise in cloud infrastructure and DevOps, specializing in the FinTech sector. I have solid foundation in system administration and extensive experience in Alibaba Cloud, Kubernetes, and Helm. Skilled at ensuring regulatory compliance, optimal performance and cost efficiency. I am interested in network infrastructure and server administration. In addition, I am also a fan of programming in C, container technologies, virtualization, and reproducibility.

Work Experience

PT Nusa Satu Inti Artha — *Jakarta, Indonesia*

System & Cloud Engineer — *September 2023 - Present*

- Managing Alibaba Cloud Services such as: ECS, RDS, OSS, RAM, and ACK
